

**FOR IMMEDIATE RELEASE**

**Dolphin WaterCare™ and DuBois Chemicals Announce Service Partnership**

Sharonville, Ohio (November 17, 2008) – Dolphin WaterCare™, provider of proprietary chemical-free water treatment solutions, and DuBois Chemicals, provider of advanced chemical water treatment systems, programs and solutions, are proud to announce their unprecedented service partnership. Joining forces, the two industry leaders now offer more choices, streamlined service, and greener solutions than ever before.

Once an unlikely pair, Dolphin WaterCare and DuBois Chemicals are excited to collaborate in their efforts to protect the environment and provide extremely effective water treatment solutions. Today, customers can enjoy easier access to both chemical and non-chemical water treatment options along with the same Dolphin-DuBois team of experts they've grown to know and respect.

Dolphin WaterCare, recognized for its proprietary and patented Dolphin System™ Technology, provides chemical-free, environmentally sustainable water treatment solutions to improve cooling system performance and eliminate scale, corrosion, and microbiological fouling. "We're thrilled to partner with DuBois Chemicals, an industry leader in safe and sustainable water treatment products and services," explains John E. Dresty, Jr. CEO of Dolphin WaterCare and its founding company, Clearwater Systems Corporation. "Moving forward, we will continue to deliver environmentally responsible technology and solutions to our loyal client base."

Since 1920, DuBois Chemicals has delivered lean, green, and clean water treatment products and solutions designed to reduce total cost of ownership. "Our new relationship with Dolphin WaterCare, a well-respected leader in safe and responsible water treatment solutions, adds even more strength to our ongoing environmental initiatives," states Jeff Welsh, President of DuBois Chemicals. "This synergistic approach ensures a broader, more inclusive range of treatment options addressing each customer's unique needs."

**About Dolphin Water Care**

Dolphin WaterCare ([www.dolphinwatercare.com](http://www.dolphinwatercare.com)), a Division of Clearwater Systems Corporation, has provided environmentally responsible water treatment solutions for more than a decade. The company's state-of-the-art, proprietary Dolphin System Technology is installed in facilities around the world. The company is focused exclusively on the design, development, manufacturing, and marketing of responsible water treatment technology that supports resource efficiency—primarily water and energy savings—while contributing to pollution prevention and the reduction of greenhouse gas emissions.

**About DuBois Chemicals**

Founded in 1920, DuBois Chemicals ([www.duboischemicals.com](http://www.duboischemicals.com)) is a leading specialty chemical and applications provider to the manufacturing industry in North America. The company's focus is to forge sustainable partnerships with customers that also reduce total cost through the delivery of innovative solutions that are lean, green and clean. DuBois specializes in the areas of metal finishing/paint pretreatment, water/wastewater treatment, maintenance/equipment cleaning, and transportation cleaning.
